Canned Corn on The Cob

This corn is Bantam, but it is golden. The Golden sunshine got into it and changed its kernels into smiles that are sweet as honey. Talk about sugar corn—this is it with the morning dews and sunshine added. There is more than sweetness to it. The south wind has come to it, bringing the fragrance of flowers, the melodies of the birds and the benediction of the blue skies

The Golden Bantam Corn. If you haven't had it, you have missed the glory of the summer.

Per Tin 75c

The half holiday season will take effect on Wednesday, May 4th, so remember to do your buying in the morning.

Campbell's Ltd.

"Where They All Go."

Boys Banquet Great Success

The Father and Son banquet organized by the boy's club and held on Monday evening last reflects great credit to the club and their leader, Rev. J. W. Oliver, and they are to be congratulated on the splendid success of the evening.

The various toasts proposed by and replied to by the boys showed we have in our midst boys who will prove themselves a credit and a benefit to the community in the years to come.

It was generally conceded that the first part of the evening, namely the banquet itself, would be hard to surpass and the boys very properly had vote of thanks proposed to the ladies for their part in making the first Father and Son Banquet in Champion an unequalled success.

The chairman appointed for the evening was Jack Taylor but unfortunately Jack was indisposed and his place was ably filled by Lennie Miliken who proved himself equal to his task, as did the other boys when their turn came to speak.

The address by Mr. Petty on "Father and Son & Co." was much appreciated by those present at the banquet and should have good results in producing a better relationship between each father and son in the district.

The following programme, given during the evening, was heartily enjoyed by all:

Banquet Grace Rev. Oliver
Sing Song Mr. Petty
Chairman's Address L. Miliken
Toast to King and country O. Canada
Toast to Our Dads Myrie Palmer
Reply, Mr. Palmer

Solo Mr. Campbell
Toast to Our Boys Mr. Marks
Reply Jessie Miliken

Chorus By the Boys
Short address, on Father and son and Company E. L. Petty
Toast to the Mothers St. Stephens
Reply, Mrs. Stephenson

Toast to the Church Clayton Crane
Reply Rev. J. W. Oliver
Toast To Sunday School J. Wright
Reply by Mr. Munhard

Recitation Mr. Williamson
Toast to the Eagle Patrol Geo. Orr
Reply, Joe Marks
Toast to the Girls club H. Maynard
Reply, Miss. Woodman
Toast to Ladies and all who contributed H. Cooper
Reply by H. Sweet
Replied to by, Best Be The Tie That Binds.

Champion School Report for April.

Pupils of Champion Consolidated School who stood first, second, and third in the respective classes during the month of April, standing being determined by monthly standing and averages on class work are as follows:

Grade X—1st, May Ulrich; 2nd, Florence Woodhall; 3rd, Betty Brown.
Grade IX—1st, Corinne Schultz.
Grade VIII—1st, Ferné Bondi; 2nd, Rowena McArthur; 3rd, Genevieve Hesper.
Grade VII—1st, Rachel Smith; 2nd, Ella Stephenson; 3rd, Beatrice Scott.
Grade VI—1st, Clayton Crane; 2nd, Ida Stoddard; 3rd, Beatrice Headfield.
Grade V—1st, Florence Ulrich; 2nd, Beatrice Schultz; 3rd, Ethel Rhodes.
Grade IV—1st, Sarah Fleming; 2nd, Ethel McDougall; 3rd, Esther Schroeder.

Grade III—1st, Fred Puszy; 2nd, Joe Pried; 3rd, Garland Puszy.
Grade I—1st, Maxine Fisher; 2nd, Hazel Pierson; 3rd, Donald Stephenson.

Grade 1-5-1st, Bulah Fry; 2nd, Eugenia Schultz; 3rd, Ruby Alder.

Enrollment for the month 124. Average attendance 118.43.

Mrs. H. Gerrard and sister Mrs. C. M. Barnes arrived from Los Angeles Cal. where Mrs. Gerrard has spent the past fifteen months, with her sister and niece Miss Helen Holmes, one of America's foremost movie stars. Mrs. Barnes will spend the summer with her sister Mrs. Gerrard and leave in the fall for Los Angeles.

Card of Thanks

Mr. and Mrs. Cain and the Henselwood family wish to thank their friends in the Champion district for their help and expressions of sympathy, also for the floral offerings during their recent and bereavement.

AMONG THE DAISIES

By E. L.

Written Exclusively For This Paper

"And so, Nellie, you have made up your mind to go to the big city?"

Nellie swung her little brimmed hat to and fro and she replied:

"Yes, Ned. I want to be independent and earn money for myself, and now that Aunt Maria has this friend of hers coming, it's a good chance for me to get away."

Ned, big and brawny, with his shirt open at his collar like a threat, a very blue of the soul, could not forbear a slight smile as he looked down at the five feet of independence before him, who was about to go out and make her mark in the world.

Nellie was an orphan who had been brought up by her aunt, but for some time now her soul had chafed against the restraint of her quiet country existence. She was twenty-one and she wanted to go to the city.

And so, with a gay smile on her lips, standing amongst the daisies in the sunlit field that beautified June afternoon, Nellie said "good-bye" to Ned who had loved her all her life. Ned was a prosperous young farmer, but he seemed very prosaic to Nellie who had all sorts of visions of being a clever business woman and to whom the life of a farmer's wife did not in the least appeal. And Ned, whose heart was aching, said no word.

The weeks in the city passed slowly. The little room for which Nellie thought she had paid a small fortune was hot and stuffy and she could not help remembering the clean white cottage she had left where the rambling roses climbed and yet, sometimes as she struggled with the mysterious dots and dashes in the Plover's letter, the beautiful green fields with white daisies rose before her. But she was proud and said no word, and in the country they thought she was happy. They had no idea of how lonely a little country girl of twenty-one can be in a large city.

And then one day Nellie took sick and for weeks she lay at the point of death. But youth and a good constitution triumphed and Aunt Maria travelled up to the city to see the "little lass."

"Fraggs," ventured Aunt Maria helpfully, "she may be willing to come home for a spell, eh Ned?"

"I shouldn't wonder," replied Ned.

MURINE Night and Morning. Has Clean, Healthy Eyes. It is the only eye medicine that is safe for the eyes. It is the only eye medicine that is safe for the eyes. It is the only eye medicine that is safe for the eyes.

W. N. U. 1366

setting his lips in a firm line, "I shouldn't wonder."

And when Nellie saw Ned she knew that she was not cut out for a career that she was just a little country blossom which would quickly fade if transplanted elsewhere, and that she could, after all be quite happy in a farmhouse.

"Oh," she said, as they were leaving the city, "where are you taking me, Ned?"

"We're taking you home, my girl," Ned's voice was hoarse, but his heart was full and he could hardly see himself to look at that little pale face which had been so blooming that last day they had talked among the daisies.

"Yes, dearie," chuckled Aunt Maria, "the city don't 'pear to have agreed with you, but if you have a rest and pick up you can come back next summer."

Next summer came and on a lovely June day Nellie and Ned again stood in the field of daisies.

Ned stopped and picked one of the white blossoms and brushed it against her soft cheek.

"Are you going to the city this year, Nellie?"

"Maybe!" replied Nellie mischievously, showing a provoking dimple as she smiled.

"And maybe not?" replied Ned merrily, drawing her closer to him.

"Maybe not," he went on, "I'm tired of you and I am going to be married. I'll live in the big farmhouse down the lane. You were never meant for the big, hungry city, but just a sweet country daisy."

As Nellie made no reply to this Ned was right.

Nervous Headaches, Dizziness

COULD NOT SLEEP

Wherever there is any weakness of the heart or nerves, bagging energy or physical breakdown the use of Milburn's Heart and Nerve Pills will produce a healthy strong condition. They renew lost vitality, build up the strength, increase mental activity, give nerve and brain power, improve the appetite and make rich, red blood. They cure nervousness, headaches, sleeplessness, nervous prostration, heart palpitation, shortness of breath, faint and dizzy spells, smothering feeling, anemia, general debility and all troubles arising from a run down system.

Mr. M. Duggan, Youngs Cove Road, N.S., writes: "I was bothered very much with my heart and nerves; had nervous headaches and dizziness, could not sleep nights and my appetite was poor. I was almost at a nervous breakdown when a neighbor told me to try Milburn's Heart and Nerve Pills. This I did before I had the second box used. I was better."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

War With Wild Beasts

Many People In India Are Killed Every Year.

The struggle between human beings and wild animals in India seems to be constant. Last year fifty-five persons were killed by elephants, five by hyenas, 109 by bears, 350 by tigers, 483 by tigers, and 626 by bears and other animals. Poisonous snakes claimed no fewer than 24,748 victims. More than 15,000 wild beasts of various kinds were destroyed and 91,000 snakes were killed. High floods killed off many of the small animals that are ordinarily the prey of wild beasts, and this probably accounts for the attention that tigers and other large animals have given to their human neighbors.

But it is for Lame Back—A brisk rubbing with Dr. Thomas' Electric Oil will relieve lame back. The skin will be immediately rubbed, the oil will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment acts in the pain comes out and there are ample grounds for saying that it is an excellent article.

Increased Use Of Drugs

Drug Advertisements Reported on Increase in Vancouver District.

Indicating an increase in the use of drugs in Vancouver during the last few years, the annual report of the city health department shows that the number of examinations of drugs during 1920 was nearly double the number of the year previous and more than five times as many as in 1917.

During 1920 the health department analyzed for the public department 2,348 samples of opium, morphine, heroin and cocaine. During 1919, the number was but 1,133. In 1918, 512, and in 1917, 429.

The halluit is the largest of the fish-like family.

"Your Teeth"

By Rea Proctor McGee, M.D., D.D.S., Editor of Oral Hygiene.

GOTTER.

Copyright, 1921, by Rea Proctor McGee.

In speaking of the diseases and infections of the body that arise from the teeth, it is not intended to give the impression that the teeth are invariably the cause of infection, but these cases are examined in order to show the results of neglecting mouths.

Until recent years we had not realized the danger of neglecting the mouth and teeth—because digestion was so seriously interfered with by the inability to chew, and because appearance and direct speech were ruined, and because pain of many kinds and of great intensity was a very frequent occurrence, and because broken roots and open cavities retained decomposing food and mucus, with a resulting bad breath. These were a few of the things that caused the more cultured people to have their mouths put in order.

The researches of the great institutions that are devoted to the study of disease have shown us that the results of neglected mouths are far more serious than we had at first believed, and there is just one way to avoid these serious results. That is to take care of the mouth in time.

Begin with the children, and if the child is trained to have its mouth in good condition and to know the comforts that follow a good mouth condition, the child will have very strenuous efforts, in later life, to have those same physical comforts.

One of the most embarrassing as well as serious of the widespread diseases of this country—a condition that is becoming more and more frequent—is goiter, which is the enlargement of the thyroid gland which lies in the interior portion of the neck.

A swelling of this gland produces a very unsightly enlargement of the neck, many times causing a series of what is known as thyroidism.

Thyroidism is attended with sleeplessness (or insomnia), nervousness and excitability, twitching and rapid heart action.

It was found that in large numbers of goiters the infection in the thyroid gland was a certain bacteria that is found in abscess areas at the ends of roots of diseased teeth in the mouth of the patient; and in many instances the treatment of the teeth, or the extraction of the teeth and curing of the abscess, relieved the goiter curatively.

It is therefore advisable to have a careful X-ray examination of the mouth in all goiter cases.

Supersation of Sailsors.

Old sailors believe ill-luck will surely follow if anyone on board a ship intentionally counts the number of persons on board ship.

It Will Prevent Ulcerated Throat.—At the first symptoms of sore throat, which preages ulceration and inflammation, take a spoonful of Dr. Thomas' Electric Oil. Add a little sugar to make it palatable, and it will play the irritation and prevent the ulceration and swelling that are so painful. Use it before the throat is so sore that you are unable to swallow.

Winner For Four Time.

S. Larcombe, of Birle, Manitoba has been declared winner of the Manitoba Free Press sweepstake prize in connection with the National Soil Products Exhibition held in Winnipeg last January. This makes the fourth time Mr. Larcombe has won the sweepstake.

English Socialist is Dead in Pekin.

The death in Pekin of Professor Bertrand Russell, English sociologist, mathematician and philosopher, who arrived in China late in 1920 for a lecture, is reported.

Mammoth Trees of California.

The mammoth tree of California, the giant of the famous calaveras grove at Calaveras, is 327 feet high by 90 feet in circumference. It is believed to be 3,000 to 4,000 years old.

DODD'S KIDNEY PILLS

ALL KIDNEY DISEASES

4087 THE PROPRIETOR

Baby Specialists.

THAT there are Physicians who specialize on Infant ailments you know. All Physicians understand Infant troubles: all Physicians treat them. It is his profession, his duty, to know human ills from the Stork to the Great Beyond.

But in serious cases he calls in the Specialist. Why? He knows as every Mother knows, or ought to know, that Baby is just a baby, needing special treatment, special remedies.

Can a Mother be less thoughtful? Can a Mother try to relieve Baby with a remedy that she would use for herself? Ask yourself; and answer honestly!

Always remember that Baby is just a baby. And remembering this you will remember that Fletcher's Castoria is made especially for Infants and Children.

Children Cry For

Fletcher's CASTORIA

The False and the True.

Advertising by the use of large space, the expenditure of huge sums of money have placed on the market, have put in your hands, perhaps, many articles that today have been discarded, as you will readily admit.

Do you recall anything that has more modestly appealed to the public than Fletcher's Castoria: modest in all its claims, pleading at all times—and truthfully—for our babies?

The big splash, the misleading claims may win for a time, but the honest truth-telling advertiser is like the old story of the tortoise that beat the hare.

Mothers everywhere, and their daughters, now mothers, speak frankly, glowingly, enthusiastically in praise of Fletcher's Castoria. Speak of it lovingly as a friend that has brought comfort, cheer and smiles to their little ones.

To them: to these true mothers no argument can induce them to set aside their bottle of Castoria, their old friend, that they might try even another and unknown remedy for babies. Then, would YOU think of going to YOUR OWN medicine chest to find relief for Baby's troubles? Can you not separate the false from the true?

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher

THE CANTAIN COMPANY, NEW YORK CITY.

One Of The Unconquerable

Man Paralyzed in Childhood Has Career Worthy of Admiration.

Joe F. Sullivan, formerly of Imboden, Ark., who was paralyzed in childhood, and who in spite of his serious infirmity struggled through school, edited a paper and became mayor of Imboden before he was 21, is now, at the age of 29, earning \$7,000 a year as a writer and head of the Michigan Hospital at Farmington, near Detroit, established with a million dollar gift from Mayors Coopers.

There will be no steps to climb in the buildings, because the school is for cripples. Joe Sullivan's career is worthy of admiration—Arkansas Methodists.

Art is not a thing separate and apart—art is only the beautiful way of doing things.

Under the British army regulations no soldier is eligible for married quarters unless he is 26 years of age.

France Bids For Olympia

Paris Would Secure the Olympic Games for 1924.

Premier Briand of France states it is his earnest desire that Paris secure the Olympic games in 1924, and promised the moral and financial support of the government to that end.

Premier Briand has offered government support to the building of the stadium necessary in case the games are held in Paris, plans for which will be submitted to the international Olympic association at its coming conference at Lucerne, Switzerland, June 2.

The number of flowers used in scent-making is legion, but three stand out before all others—the rose, violet and orange blossom.

The Australian water lizard, which is three or four feet in length, walks upright on its hind legs when traversing long distances on land.

Oil Development in Alberta.

The development of Okotoks and Black Diamond oil districts will be undertaken by the Royal Alberta, recently incorporated and capitalized at \$1,000,000, of which, it is reported, \$500,000 of stock is held by the Imperial Oil Company, and \$500,000 by the Dingenian interests. It is said that the Imperial Oil has contracted to spend \$400,000 in developments of the properties.

Do not suffer from indigestion, heartburn, flatulence, or any other ailment of the stomach and bowels. Use Dr. Cassell's Food and Health Food.

Dr. Cassell's Food will relieve you of all ailments of the stomach and bowels. It is a pure, natural, and safe remedy for all the ailments of the stomach and bowels. Write Dr. Cassell's Food, 124 St. Louis, Mo., or Dr. Cassell's Food, 124 St. Louis, Mo., or Dr. Cassell's Food, 124 St. Louis, Mo.

World Happenings Briefly Told

Ford Motor Co. has started record of single workers without dependents to its automobile plant at Detroit. Final figures of the referendum commission put Toronto on the right side by a majority of 9,010.

A Cincinnati woman left the bulk of her estate to the U.S. Government to help pay off the war debt.

A Detroit judge permitted a prisoner to leave court to attend a funeral. He hasn't got back yet.

Welland, Ont., fears loss of early cherries by the recent severe cold weather.

In five years Chicago has had 1,144 murders, New York 1,121 and London, England 128.

Among the items approved by the Ontario Legislature is one of \$100,000 for establishing a provincial cement plant.

From 40,000 to 50,000 men will be required to gather the 1921 crop in Kansas, it was estimated at a meeting of heads of employment agencies.

Provision for protection of the Holy Sepulcher against fire has been made by Sir Herbert Samuel, high commissioner for Palestine, says the Palestine weekly.

C. A. Birrell, of Fort William, was appointed secretary of the Grain Inquiry Board at an informal meeting of members. He has arrived in Winnipeg.

Four men were fined \$200 and costs or thirty days in jail, and three others were remanded on charges of disorderly conduct arising out of the unemployed demonstration in Toronto.

Sir Edgar Watson, the high commissioner for South Africa, in an interview with the London Times, says General Smuts' government has got well into the saddle and already had done much to unite the people.

Quangwak, the Eskimo murderer, who, to secure a wife, killed two of his fellow tribesmen, has escaped from the Mount Peel at Chesterfield Inlet, and is now at large in the Arctic region.

Watering Farm Horses

Working Horses are Frequently Neglected, Which Leads to Serious Results

Walter Moore, a well-known writer, says:—
"It is a common thing for farmers to work their horses in the hay field from morning to night, watering them only at noon. This is done even on days of excessive heat. The driver usually has two or more refreshing drinks in the middle of the morning and again in the afternoon, but the horses, who are equally as thirsty, go without. This want of water is not only excessive, but it causes the horses to drink to excess at noon, and again at night, which often results in colic, and always tends to produce a distended stomach of which farmers call a 'water belly.' Farmers who would treat their horses humanely should take water into the field for them in hot weather."—Boston Work Horse Relief Association.

THE FATEFUL YEARS FOR EVERY WOMAN

How to Overcome Troubles That Afflict Women Only

So far as a woman's health is concerned, probably the most fateful years of her life are those between 45 and 50. Many women enter this period under depressing conditions, through overwork in household cares, or a neglected condition of the blood, and so they suffer heavily.

Among the commonest symptoms at this time are headaches, pains in the back and sides, fever flashes, palpitation, dizziness and depression. It is the worst time of a woman's life, but health can be relieved by home treatment. What women stand in need of is a medicine that never more than 45 and 50. Many women enter this period under depressing conditions, through overwork in household cares, or a neglected condition of the blood, and so they suffer heavily.

Many women enter this period under depressing conditions, through overwork in household cares, or a neglected condition of the blood, and so they suffer heavily.

Among the commonest symptoms at this time are headaches, pains in the back and sides, fever flashes, palpitation, dizziness and depression. It is the worst time of a woman's life, but health can be relieved by home treatment. What women stand in need of is a medicine that never more than 45 and 50. Many women enter this period under depressing conditions, through overwork in household cares, or a neglected condition of the blood, and so they suffer heavily.

Creeps Into the System Just Like a Serpent

Like a thief in the night, it steals through the system—the how Catarrh acts. Don't ride with such a scourge. Time and experience have proved that Catarrh is a very deadly remedy for all Catarrhal and bronchial troubles. You don't take any drugs, you just inhale the sweet soothing vapor of Catarrhine which is laden with balsam, easing the throat, relief and ease the sufferer. To strengthen the throat, to sweeten the breath, to stop nasty discharges, to drive out Catarrh, colds and weakness in the throat, use Catarrhine. Two months treatment one dollar, smaller size 50c, all dealers or the Catarrhine Co., Montreal.

To Begin Irrigation Work

To Bring Water to 100,000 Acres in the Letbridge District.

It is now assured that construction on additional irrigation works to bring water to 100,000 acres in the Letbridge Northern Irrigation district, will be started on the 1st May. The legislature of Alberta now in session has unanimously decided to guarantee the necessary finances. The large farming area already under irrigation around Letbridge has been very profitable. Bonds covering expenditure for the new irrigation area guaranteed by the province of Alberta will shortly be on the market.

The Dumb Animals

Movement For Greater Kindness to Dumb Animals is Growing.

The movement to set aside special days for greater kindness to dumb animals is growing. It is a movement that appeals to reason. Go back into childhood and almost anyone recalls a certain pet dog that was as loyal a friend as one could have. The child who loved the intelligent old horse in grandfather's barn? Who did not find every kicking back the years when another road and the stories of "Beautiful Joe" and "Black Beauty."

Much of the joy of youth is inseparably bound up with dumb animals. Children instinctively are affectionate and kind to dumb brutes. That is the normal attitude toward them. As we grow older, however, we grow thoughtless and many are unmercifully cruel to dogs and cats and the beasts of the field and the fowl of the air.

We owe a mighty debt to dumb animals.—Winnipeg Tribune.

Manitoba's Population.

The total population in Manitoba in 1920 was 154,466, according to the annual report of the statistics branch of the Provincial Government. The death rate for the province last year was 12.2 per thousand, a reduction from 13.1 in 1919. Births in 1920 totalled 18,536 as against 15,519 during the previous year.

Catarrhal Deafness Cannot be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarrhal Deafness, and that is by CATARRHINE, which enters through the Eustachian tube, cleans out the membrane, and restores the hearing.

ONE HUNDRED DOLLARS for cure of Catarrhal Deafness that cannot be cured by CATARRHINE. Write to: CATARRHINE CO., Montreal, Que.

NEW CREAMERY PLANT PLANNED.

Several creameries and cold storage plants, construction of which was commenced last year, are to be completed as quickly as possible this summer by the Saskatchewan Co-operative Creameries. The new plants are at Yorkton, Weyburn and Melville.

Among the Russian crown jewels, the whereabouts of which remain a mystery, is an emerald weighing six and three-quarter pounds.

That's Why You're Tired

—Out of Sorts—Have No Appetite—Your Liver is Sluggish—CARTER'S LITTLE LIVER PILLS will help you get right in a few days.

They act quickly through the bowels and give you a chance to get back to your normal health. They correct the indigestion, the effects of constipation, relieve biliousness, indigestion and sick headache.

Small Pill—Small Dose—Small Price

Eyebolt Embroidery Is A Favored Trimming

By Marie Belmont.

One of the most interesting developments in the adorning of the new spring frocks and gowns is the lavish use of eyelet embroidery. It is exceedingly effective, as it permits the use of contrasting fabrics which add much to the beauty of the models. This dress, cut from soft folds of salmon chiffon is partly veiled by ecru batiste which is cut in pointed style. A huge saash of chiffon is bowed at the waistline, and the long ends become panels that are much longer than the front of the gown.

Sickening Calomel Not Favored More Agreeable Medicine Described

Calomel and Blue Pills are described as they once were. When the head aches, when the stomach is upset, when the liver is not working right, don't resort to harsh calomel, use a pleasant agreeable remedy like Dr. Hamilton's Pills. Being largely vegetable in their composition, Dr. Hamilton's Pills are extremely mild, yet they surely flush out all impurities and wastes. No remedy is so well adapted for general family use. For constipation and bowels' trouble, Hamilton's Pills can't be improved upon. Good for the young, the old, the sick, the well ones. The benefits of Dr. Hamilton's Pills are manifold. Needed and useful in every household. All dealers everywhere or The Catarrhine Co., Montreal.

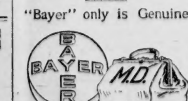

Winnipeg Industries

City Has An Estimated Annual Payroll of \$24,308,892. With an estimated capital of \$96,068,282, an estimated annual payroll of \$24,308,892, the output of Winnipeg industries in 1920 valued at \$120,213,000. Of this sum flour and grain mills absorbed \$14,487,398; slaughtering and meat packing, \$6,286,260; butter and cheese, \$2,901,648; cotton, \$2,739,623; electric light and power, \$2,335,907; lumber products, \$1,818,567; bread, biscuits and confectionery, \$1,816,671; printing and publishing, \$1,785,001; milk liquors, \$1,666,905; coffee and spices, \$1,704,424; foundry and machine shop products, \$1,403,500; furnishing goods (men's), \$1,147,456.

The first successful portrait photograph taken by the British was one of Neve Chapel, in 1914.

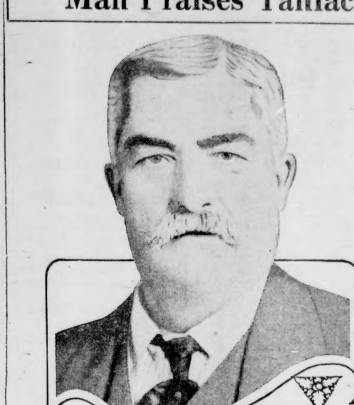

ASPIRIN

"Bayer" is Genuine

Warning! Take no chances with substitutes for genuine "Bayer" Tablets. Aspirin is a name. "Bayer" on package or on tablets you are not getting Aspirin at all. In every Bayer package are directions for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and Pain. Handy tin boxes of tablets are sold in all drug stores. Aspirin also sells larger packages. Made in Canada. Aspirin is a trade mark (registered in Canada), of Bayer Manufacturing of Monocrocin and of Sali-Medica.

Prominent Western Man Praises Tanlac

G. W. Logan, Peabody, Kansas

"Tanlac has completely restored my health and I feel finer than in years." This is the straightforward statement made recently by Mr. George W. Logan, of Peabody, Kansas, one of the most prominent stock-dealers in the Middle West.

"It has not only made a new man of me but I have actually gained thirty-five pounds in weight and feel as fit as I ever did in my life. I am telling all of my friends about Tanlac but they can see for themselves it has done in my case."

"When I began taking Tanlac I was in an awful run-down condition. I was away off in weight, felt weak and nervous all of the time and couldn't take any interest in my work or anything else. My main trouble was indigestion. Nothing seemed to agree with me. At times I would have dizzy spells and at other times my back would ache so bad that I could hardly get up and down in my chair. This is just the condition I was in when I started to take this medicine. It took just five bottles to make a well man of me. I now have a fine appetite, everything tastes good and my digestion is perfect."

"My wife was also troubled with indigestion at times and it relieved her the same way. I may publish my statement wherever you like and if anyone doubts it, just tell them to see me."

Big Sale of Timothy Seed.

Growers of Timothy seed, here the Thacker Creek District, Alberta, have recently sold 500,000 pounds of seed to a Chicago firm. The price sold was from 3 1/2 to 6 1/2 cents per pound.

Nearly all children are subject to worms, and many are born with them. Spare them suffering by using Mother Gray's Worm Expeller, an excellent remedy.

Some Yield

An acre of ground planted with bananas will, it is estimated, produce nearly 20 tons of fruit. Each bunch of bananas weighs from 70 to 80 pounds.

Satisfaction in both Cans

Imperial Mica Axle Grease contains just enough powdered mica to form a smooth, hard surface on the axle which relieves friction and enables grease to do its work better. It prevents hot boxes and scored axles, and outlasts other greases two to one.

Imperial Eureka Harness Oil penetrates every fibre of leather, thereby excluding moisture, dust and sweat. It preserves harness, and prevents cracking and breaking of stitches. Harness that is treated with it lasts for years, looks well all the time and requires little repairing.

Ask your nearest dealer about these two high quality products. He has both in convenient sizes.

Advertisements in the Local, Lost, Found, Strayed, and not exceeding one inch, 50 cents for first insertion, 35 cents for each subsequent insertion. Commercial rates on application.

THURSDAY, May 3, 1921.

Earlier Than Last Year

The spring has opened in good time and it has been possible to make a start in cultivation in practically every quarter of the province, but the warming up process, on the other hand, has been slow. Nights continue cool and the grass has not made any great progress except in the south. In spite of slow weather experienced farmers are favorable in making the best use of their time for wheat seeding once the soil is fit to work. It is considered an advantage to have a slow rooting of the wheat crop. The favorable condition of the land for cultivation is perhaps due to the disappearance in midwinter of a good deal of the snow fall of December. There is not in any part of the province a condition of heavy saturation of the land from fast melting snow.

Southern Alberta

In southern Alberta conditions are rather better than usual particularly in those parts of the province where the moisture disappears most easily. Seeding operations are active at Medicine Hat. Farmers report that there is more moisture in the ground this year than has been in the past three or four years. It is expected that seeding will be completed there by May 15th though only about ten per cent of the crop is sown so far. In the Lethbridge country conditions are good. Fifteen to twenty per cent of the wheat has been already sown. A snow fall of eight inches reaching from Nanton and covering the whole south-western part of the province occurred on Saturday the 29th, which itself is adequate to freshen the soil down to plow depth and to give a quick start to the grain. In the district east of Calgary seeding operations have been active. Sixty per cent of the wheat seeding will be finished before the end of the month. Seeding conditions have been made good by recent storms in this district also though some of the stubble land is quite dry.

Central Alberta

In the Red Deer and Lacanville country the snow ingured and operations have not been as early as usual. The Edmonton district seems to be rather further than usual. Work has been going on steadily for three weeks in the Oliver Bay, Rabbit Hill, Stony Plain, and Fort Saskatchewan districts. The conditions for germination are favourable. At Lloydminster the unsettled condition of weather has delayed the seeding, but a good moisture supply on these open lands will insure a good crop.

Peace River

The people of the Peace River are vigorously at work and wheat seeding will be about as far along at the end of the month as it is in Central Alberta. The season appears to be rather earlier in the Grande Prairie, Spirit River, Beaver Lodge, and Waterhouse districts than farther east. Cultivation work has been going on around Peace River itself but seeding is not yet general. It is expected that seeding will make rapid progress at the first of the month.

It is not possible yet to estimate how the total area of the province will compare with that of last year. The normal increase is about eight or ten per cent yearly but this rate was increased during four years of the war. The feeling of the farmer is not favourable to any increase and in some places there will be a slight shrinkage, but the demand for labor is keen at Edmonton, Calgary and Lethbridge. There will probably be some shrinkage due to rearing in some places.

Five handits tried to rob A. Goldberg in his cafe at New York. He apologized to the police because three of them got away. The other two may possibly recover but never will be the same.

U. S. Census Bureau reports the purchasing power of the dollar has increased 18 cents since last May. It is now worth 64 cents, compared with 46 cents then.

A Lockport, Ill., woman accused a neighbor of stealing sugar and potatoes from her pantry, claiming the "cops" found it. Last week a jury assessed her \$10,000.

Live Stock

Live stock has come through the winter in good condition in all parts of the province. It is safe to say in the first three months of winter stock did not consume half the feed that it did in the winter of 1919-1920 and much less in the second half also than it consumed last year. Grass is growing well in the south country but is coming rather slowly in both Central and Northern Alberta.

It is not generally known that the first Red Cross peace work of an international nature was done by Canada, yet that is a fact. It was during Armistice week that Canada staged a big drive for funds on behalf of the Imperial War Relief fund, what developed into an all-British movement in relief of distress and disease throughout the war stricken areas of Europe. The result in Canada was the subscription of \$200,000. This was the first united British Empire war relief work and it is claimed by its proponents that the conception of a world-wide league of Red Cross societies was the natural outgrowth of this drive.

Also, since the Armistice, and this time under the patronage of the League of Red Cross societies, the Canadian Red Cross has sent into Romania a Canadian Nursing Mission consisting of 18 graduate nurses, whose high mission is to teach in that country modern nursing methods. The mission has the entire and enthusiastic approval of the Roumanian Red Cross and it is under the distinguished patronage of the Queen of Roumania. The mission in charge is Miss Dorothy Cotton, a graduate of the Royal Victoria Hospital, Montreal.

At home the Canadian Red Cross is busy with its program of public health training and the secretary reports that all the courses suggested and outlined by the society are meeting with capacity attendance and that some of those who would like to take the classes have been disappointed. It is pointed out that the work supplemented to that of district nurses in educating the public to the necessity of doing as requested by the district nurses.

The Red Cross membership drive will not be put on before June but at last time a nation wide appeal is to be made to enlist every adult and child in the ranks of the society.

ABOLISH FINANCIAL WORRY PROLONG YOUR LIFE

A CANADIAN GOVERNMENT ANNUITY WILL DO IT
Gives a larger return for life than is obtainable from any other form of investment with absolute security.

Free from Dominion Income Tax.
Any person resident or domiciled in Canada over the age of 5 may purchase, to begin at once, or at any later date desired, an Annuity of from \$50 to \$5,000, to be paid in monthly or quarterly instalments.
Any two persons may purchase jointly.
Employers may purchase for their employees.

Apply to your postmaster, or write, postage free, to S. T. Bastedo, Superintendent of Annuities, Ottawa, for new booklet and other information required. Mention age last birthday.

We are glad to report that Mrs. P. M. Patterson's baby, which has been in the Calgary hospital for the past two weeks is improving and will soon be able to be home again.

S. King arrived here from Empress last Saturday. He will take the place of W. M. Oliver who is taking the management during J. V. Steel's absence.

Printers in job and newspaper offices in Peterboro, Ont. have gone on strike for a forty-four hour week and an increase of 88 per week.

Money Will Not Buy a Better Paper

THE man of wealth can buy a better car, wear better clothes, eat better food, live in a better house, than those without means. But he cannot buy a better newspaper. Even if he would spend \$50, \$100, or \$1000 a day—if he lived in the territory covered by THE Calgary Herald, he could not buy a paper that would serve his needs better than you can for 2 1/2c a day.

In Buying Newspapers All Men are Equal

THE price of newspapers is the same, or nearly so, regardless of the value they offer—as you should see that you get the best when the best costs no more. In the Calgary Herald you get a paper that averages from 18 to 24 pages—you get all the news first, and it's dependable. You get a variety and a wealth of special articles, departments and features that are equalled by but few papers in the Dominion. The Herald offers the greatest newspaper value you can buy—and, as for the past 37 years, it will serve you best.

TO ASSIST THE FARMERS BY PLACING SETTLERS ON UNOCCUPIED LANDS

Managing Director of the Western Canada Colonization Association Discloses the Plans of the Organization—Major-General A. D. McRae, C.B., Immigration Expert, Asks For Provincial Land Settlement Board and for Statute of Vacant Lands With Prices Good For a Reasonable Period.

As Mr. T. A. Cress has said, population is the only possible solution of the National Railway problem. The simple fact is that neither Western Canada nor Canada as a whole can continue to "carry on" without a marked increase in the number of people on the land. The present sparse population of the three prairie provinces affords an unnecessary burden upon the settlers themselves, as it does upon the entire country. The larger the number of actual farmers on the soil, the more potent will their voice be in regard to such questions as freight, elevating, marketing and purchasing.

A number of far-seeing men have brought the Western Canada Colonization Association into being. The organization has no share capital. Under its federal charter it has no profits. It is financed by voluntary subscriptions from public spirited citizens who have the progress and welfare of the country at heart. Its executive Director is Major-General A. D. McRae, C.B., a well-known recreative farmer and leading business man. Its purpose is to bring into the prairie provinces vacant lands lying close to existing railways and hold out of cultivation in the main by absentee owners.

Major-General A. D. McRae, C.B., has been recently elected president of the association, is an experienced colonizer of land, and in the plan drawn up by him the heartiest co-operation on the part of the prairie provinces is essential to the success of the project. That each of the prairie provinces appoint a Land Settlement Board to provide the association with the opinion likely to be given by the people good for a reasonable period. The opinion likely to be given by the people good for a reasonable period. The opinion likely to be given by the people good for a reasonable period.

During the last few days a delegation including Major-General McRae, Vice-President, and other Directors of the Association, has been visiting the Manitoba, Saskatchewan and Alberta cabinets with a view to forth the suggestions of the organization. In each case the deputations were received by the cabinet and their colleagues. The memorial presented to the Honourable Mr. Premier and Ministers of the Government.

I thank you on behalf of the Directors of the Western Canada Colonization Association for the cordial reception of meeting with you to consider the problem of colonizing lands in your province. Before proceeding, I would like to state the mission of our association. Our organization is supported entirely by voluntary contributions from prominent Canadian individuals and corporations. Business interests in the prairie provinces have subscribed a very large sum of money for the association with a view to assist in settling the unoccupied lands of Western Canada. This fact reveals the national realization of the need for increased immigration to the prairie provinces. It is our desire to co-operate closely with the prairie provinces in an active sympathy with the people of the prairie provinces and their government, with the object, as will be hereafter shown, is to better the position together with that of the whole Dominion.

To Secure Unoccupied Lands. We seek no cash assistance from your government or any other government. Our association is a corporation without the power of gain. It cannot, under its charter, become interested in the sale of land, or mission or for any other pecuniary consideration. We have no use to grind except the public use. Our sole purpose is to assist in the development of the western provinces and particularly in the placing of settlers on the unoccupied lands of the present railways. It is our desire to co-operate closely with the prairie provinces in an active sympathy with the people of the prairie provinces and their government, with the object, as will be hereafter shown, is to better the position together with that of the whole Dominion.

Uniform System Needed. With the disappearance of the free homestead land settlement became a difficult affair. So long as settlers could rush into the country and obtain the assistance of the local Dominion Government and Agent land, the distance of the railway, good free land, little attention was paid to them. Most of the land has been alienated to the whole situation. The lands are held largely by non-resident owners. Some uniform method of dealing with such lands must be adopted.

life of the community. It is only by such means that the exodus of farmers from various districts can be stopped and the agricultural population be given that permanence of tenure which is essential to the sustained growth and welfare of the country.

Internal Migration. Furthermore, it would appear that the Land Settlement Board, with the information it will possess, will offer an organization especially qualified to handle the transfer of settlers within the prairie provinces.

In addition to dealing with the land coming directly under its control an effective Provincial Colonization Board will have a very powerful indirect influence on the prairie provinces throughout the province generally and will be a safeguard in protecting settlers from paying unreasonably high prices for wild land. The operations of the board cannot be otherwise than as a stimulus to the sale of unimproved land to actual settlers at reasonable prices. It undoubtedly will result in bringing a big increased average under permanent production and incidentally in lessening the burden of taxation on the existing population.

An Established Principle. The government is making the owner of unoccupied land his price will merely follow the principle of the market. This plan, if adopted, will render fair competition in the sale of land and price lists of unoccupied lands for such lands as are available for sale. The best of the prairie provinces land settlement can be provided. The best of the prairie provinces land settlement can be provided. The best of the prairie provinces land settlement can be provided.

A Just Proposal. As to the penalty proposed, it is a matter of course that the owner of unoccupied land will be the owner of the land. It is a matter of course that the owner of unoccupied land will be the owner of the land. It is a matter of course that the owner of unoccupied land will be the owner of the land.

Bringing Them To Justice. Nine Hundred War Criminals Are To Be Tried May 21. Berlin—Nine hundred German war criminals had been demanded by the Entente for crimes committed during the war, will face trial at Leipzig, beginning May 21. Seven judges will sit on the bench. The first four witnesses against minor offenders on a supplemental list. The trials of Non-Commissioned Officers during the winter 1919. Captain Mueller, commander of the prison camp at Platte-Marc, and Private Neumann, who is alleged to have maltreated prisoners at the Prison Camp at Pommernsdorf, will be the first to be tried. Captain Neumann, commander of the prison camp at Platte-Marc, and Private Neumann, who is alleged to have maltreated prisoners at the Prison Camp at Pommernsdorf, will be the first to be tried.

An Example To The World. President Harding Speaks On Amity Between Canada and U.S. Washington—President Harding, on his way to the United States, will be the first to be tried. Captain Neumann, commander of the prison camp at Platte-Marc, and Private Neumann, who is alleged to have maltreated prisoners at the Prison Camp at Pommernsdorf, will be the first to be tried.

Unemployment in England. Is Growing at an Alarming Rate According to U.S. Consul Reports. Washington—Unemployment in England is increasing at an alarming rate, consular dispatches report. Birmingham, where more than 100,000 persons are idle, was cited as typical with an increase of eight thousand per week during the last three weeks.

Naval Sailing Deferred. Ottawa—The date for the sailing of the Canadian squadron has been put back one week. The department of naval service has decided that the British fleet is being shipped upon the British market, the message said.

Postpone Negotiations. Paris—The Foreign Relations Committee of the Senate has voted to postpone temporarily consideration of the question of a resumption of the relations between France and the Vatican.

Home Rule Act Will Be Applied In Ireland Without Change

Everybody Works in Germany

Chas. M. Schwab Says People There Have Settled Down to Real Production.

New York—Germany, through the energy and sacrifices of her working people has settled down to real production and is outstripping the United States and allied nations in the working hours as well as in the output. Chas. M. Schwab declared here in an address before the Chamber of Commerce of the State of New York.

Germany today can put a ton of steel in England at a price 30 to 40 per cent cheaper than England can make it, he said, "and is selling pneumatic tools in Detroit at a price 25 per cent cheaper than the American-made tools shipped such machinery to Germany and sold cheaper than she could make it. The difference is solely a matter of cost of labor. It is estimated that 5,000,000 men are out of work in this country; it is accordingly of supreme importance to the workingman as well as to the capitalist to restore our prosperity.

"Never before was the need for products so great, never before has such valuable producing machinery and facility available, and never before was there so much that needed to be produced."

"I have just returned from Europe, and I came with renewed admiration for the courage, the enterprise, the devotion displayed in Italy, Belgium, France and England. Germany was ahead of all of them in production."

"It is possible that after having won the war, we of the allied nations, with everything in our hands, will allow Germany to win the peace through the efforts of her labor."

Expenditures For Dry Areas

Government Aid In Transporting Feed and Livestock.

Ottawa—A total of \$879,106 was expended by the Dominion Government in the transportation of feed and livestock, from dry areas to feeding areas in Manitoba, Saskatchewan and Alberta, during the winter 1919. W. H. White (Victoria), was informed in the House of Commons.

Of this amount fifty per cent was recoverable from the provinces of Manitoba, Alberta and Saskatchewan. The balance was paid by the department of agriculture for the purpose would be \$467,200.

Wheat Above Ground. Leithridge—Two Threshers farmers report what seemed this spring showing well above the ground.

Strong Plea for West at Railway Board Session

Emergency Relief Is Asked For at the Earliest Date Possible.

Winipeg—Emergency relief at the earliest possible date in order to prevent production from falling to a low level that it may constitute a most dangerous situation not only for the west, but that far from the railways interested, was requested by H. J. Symington, K.C., on behalf of the governments of Manitoba and Saskatchewan at the concluding session of the Railway Commission here. Mr. Symington declared that never before had similar conditions existed in the west, and that farmers and businessmen were instructing the railways to produce only what they could harvest themselves. The farmers, he said, were becoming dispondent and urged that something be done at once to save the situation.

An application for a reduction in the summer freight rates on coal from the western coal mines to Winipeg and as far east as Port William was also made, and will be considered as soon as the board gets together in Ottawa, probably a week hence. The application for a reduction in the equalization of freight rates, F. H. Chrysler, K.C., representing the Railway Association of Canada, remarked. H. B. Carvell, chairman of the board, proposed that as soon as the board got back to Ottawa he request convey Mr. Symington's plea to the heads of the various railways and to his colleagues and that it would be given very serious consideration. If anything could be done, always remembering that they must remain within the restrictions and also made, and upon them by the railway law, he for one would be only too glad to do all he could to assist Mr. Carvell said.

As an application for a reduction in the summer freight rates on coal from the western coal mines to Winipeg and as far east as Port William was also made, and will be considered as soon as the board gets together in Ottawa, probably a week hence.

London—In introducing the vote for the Irish, offered in the House of Commons, Sir Hamar Greenwood, the chief secretary, expressed regret that since the last debate the Sinn Féin threat to sequestration in Ireland had become more pronounced. He declared one of them had been obliged to leave the country under the measure of death.

Dealing with the police force, Sir Hamar said the auxiliaries had been a special function which would be performed by no other force—a statement which brought ironical cheers from the Opposition. Sir Hamar asserted the auxiliaries had to go into the most disturbed areas and said that the order from Sinn Féin headquarters was to shoot them on sight. Every provision had been made by the Crown forces in Ireland, said Sir Hamar under the circumstances, was extraordinarily good.

The Government, Sir Hamar declared, declined to differentiate between the north and south of Ireland in applying the Home Rule Act. He said:

"We decline to have an act of Parliament torn up by the introduction of anybody in Ireland. We will have a parliament functioning in the north and south of Ireland. It is the act to carry on successfully. Everyone, except the extremists, is in favour of peace. The extremists are those who are in a conference with the Government as to the best methods of securing order between the two communities."

The Prime Minister, replying in the debate, declined to postpone the elections because that would give the impression that Parliament could not be trusted. To Ireland must be left the responsibility of accepting or rejecting.

British Miners Holding Out

Negotiations Reported to Have Reached a Standstill.

London—The negotiations which have been in progress with the coal strike, reached another complete deadlock when the Miners' Federation rejected the Government's latest offer to increase the temporary subsidy to the industry from £7,500,000 to £10,000,000.

The rejection was made by an overwhelming majority of the miners' delegates, because the offer "falls far short of the fundamental principle for which we stand."

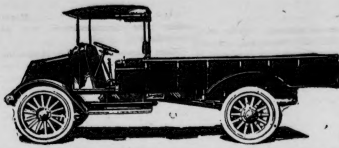

All the delegates of the nine workers who had been attending the conference at London are returning to their respective districts. Although the miners themselves could overcome the London conference, the Government is considered unlikely. Frank Hodges, secretary of the Miners' Union, said the Government offer would mean a reduction in the miners' wages of four shillings in July, and four shillings sixpence in August, and that this was more than they could agree to.
